

TANITA

Monitoring Your Health

BC-601 Series Body Segmental Composition Monitors

Make: Tanita (Japan)

Model: BC-601

Color: Black & Silver

PRODUCT DESCRIPTION

The Tanita BC601 is the perfect tool for monitoring the effectiveness of any professional fitness or sports program over time. From tracking body fat and muscle mass trends, to recommending calorie intake and indicating hydration levels this Monitor help you tailor your exercise and dietary requirements helping attain peak physical performance.

This 8 ELECTRODE Body Composition Monitor displays readings for the whole body AND for each segment: arms, legs and trunk area so you can see exactly how your body is responding to specific training sessions over time. The extra large LCD colour display is sy-to-read and the retractable cord ensures the handset fits snugly into the main unit for easy storage.

All your body composition data is automatically stored on the SD Card (included) and can be downloaded onto your computer in EXCEL format. Software is pre-loaded onto the SD card for ease of use
